WHO: Labor Unions,
Community
Organizations and
Faith Groups

WHEN: Tuesday,
10.20.20, 1PM

WHERE: Shiloh
Baptist Church Lot
350 Albany Ave,
Hartford

- Increased investment in public services, healthcare, education, affordable housing, infrastructure, and the environment.
- Financial support and job training opportunities so that working people in Connecticut who have lost jobs or been economically harmed by the pandemic are supported and trained.
- Racial and gender justice because working people including immigrants and people of color, are the backbone of our essential workforce.
- Progressive taxation which mandates that billionaires and wealthy corporations contribute their fair share to the financial health of our state.
